Sexy Misha Detectives
presents
Inugami-san to Nakoyama-san ch.4 ✓

(with Read leveling and coloring!)
(and improved lit. notes!)

TLer: Rankarana

Editor: jeweledbranchofhourai {who would be the best buff inuneko
char tho}

TLCor: Dark Mac {next up play a good rhythm game like SIF ;D}

QC: Mean Machine {be jealous more often, it's cute.}

TL notes: saru means monkey. It's one of those Japanese things,
probably stemming from Momotaro or similar folklore, that monkeys
and dogs naturally don't get along. This is untranslatable, so yeah, it's
just A Thing To Keep In Mind.

Inugami's screwing declaration isn't changed from the original! she just...
outright says it, lawd.
